INTERNATIONAL GEOMECHANICS SYMPOSIUM

30 OCTOBER–2 NOVEMBER 2023

WORKSHOP DESCRIPTION

The multi-society multi-discipline multi-industry event will focus on the role of Geomechanics for Efficient and Sustainable Energy Supply. The symposium will kick off with a legacy training program, "Rock with Fellows", offered by Priscilla Nelson on Mining (Colorado School of Mines), Maurice Dusseault on Energy Storage (University of Waterloo), and John McLennan on Geothermal (University of Utah), as well as a keynote by Mark Zoback on Unconventional Resources (Stanford University). The technical program will cover a wide range of geomechanics applications in petroleum, mining, geothermal, energy storage, CO2 Sequestration, present latest know-hows in rock, in-situ stress, pore pressure, natural fractures, faults, tectonics, rock testing, geomechanics measurements, drilling, completion, stimulation, production, reservoir engineering, CCUS, hydrogen storage, geothermal, and new energies. The summit will be an international festival for all rock jockeys from operators, technology developers, service providers, researchers, educators, and students.

BECOME A SPONSOR

Sponsorship opportunities are available for this highly anticipated workshop. For more information regarding sponsorship opportunities, contact **Anneke de Klerk** at aklerk@seg.org
